

ACCEPTABLE USE POLICY (Employees/Board of Education Members)

- I. The Watertown City School district offers access to electronic resources through the district computer network for instructional use. To gain access to the Internet and network, all employees and board members must sign and return the acceptable use policy to the district. The District will make a reasonable attempt to prevent inappropriate use of electronic resources, but ultimately the responsibility lies with the user.
- II. While our intent is to make Internet access available to enhance learning, employees may have access to other non-instructional materials. We believe that the benefits from access to the Internet, in the form of information resources and opportunities for collaboration, exceed possible disadvantages.
- III. When access to the Internet is granted, it is extremely important that rules be followed. Violations may result in disciplinary action up to and including termination of employment. When applicable, law enforcement agencies may be involved.
- IV. The Board of Education does not sanction any use of the Internet including social media that is not authorized by or conducted strictly in compliance with this Policy. Users who disregard the District's Acceptable Use Policy may have their user privileges suspended or revoked. Users granted access through the Watertown City School District assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by District policy.
- V. Employee/Board of Education Member Responsibilities:
 - A. It is important that employees read and understand the following guidelines. The use of the Internet and other telecommunication networks is a privilege, not a right, and inappropriate use may result in cancellation of those privileges. Employees/Board of Education Members who are granted access must remember that they represent the Watertown City School District and must respect the rights of others, protect the integrity of the information technology, and observe all relevant laws, regulations, and contracts including software licensing agreements and copyright laws.
 - B. The Watertown City School District reserves the right to review, monitor and restrict information created, shared, and/or stored on or transmitted via Watertown City School District owned or leased equipment and to investigate suspected inappropriate use of resources. Users should not expect that files and/or communications will be private. Network administrators may review files and communication to maintain system integrity and insure that users are using the system responsibly. Messages related to or in support of illegal activities may be reported to the authorities.
