

The Watertown City School District is moving to Frontline Education’s Insights Platform. We look forward to the next generation of innovation. In short, the Insights Platform will give you a more secure login (FERPA-compliant), allow you to seamlessly switch between solutions, a common view and navigation experience, and give employees access to a new, FREE mobile app.

As we are all aware, cybersecurity (on every level) is becoming more and more critical. To combat the ever-changing challenges this creates, Frontline Education has redesigned their login experience to keep up with the latest cybersecurity protocols. This means we all will need to create more secure Usernames and Passwords that meet stringent cybersecurity requirements, and with this new technology comes the added security to ensure your data is also adhering to all FERPA-compliant regulations.

We are very excited to be working with Frontline Education to provide you the latest in K-12 technology advancement to better service our students now and in the future.
